Computer Science undergraduate at Bina Nusantara University with hands-on experience developing web and mobile applications using React, TypeScript, NestJS, Flutter, and SQL databases. Experienced in building REST APIs, implementing authentication and application features, and collaborating on software projects using Git. Familiar with wireframing, prototyping, mockups, responsive interface development, and usability feedback. Interested in software engineering, frontend development, and creating practical, intuitive, user-focused digital experiences.

Education

Bina Nusantara University (BINUS) **Sep 2024 - Present**
- Undergraduate Computer Science Student (S1)
  GPA: 3.48 / 4.00

Tarakanita Senior High School Gading Serpong **Jul 2021 - Apr 2024**
- Science Major

Organizational Experience

HIMTI Bina Nusantara - HISHOT 2026 (Equipment and Safety Division) **Mar 2026 - Present**
- Coordinating equipment preparation and safety arrangements for HISHOT 2026 events, supporting 5+ event setups and ensuring readiness across 10+ equipment items.
- Supported event flow and safety operations across five events, including seminars, workshops, and study tours, serving 100+ participants in total.

HIMTI Bina Nusantara - Academic Events Division **Mar 2025 - Present**
- Organizing events including seminars, workshops, and study tours for Computer Science students at BINUS University, coordinating eight events.
- Contributing to the planning and execution of eight events attended by 300+ participants in total.

HIMTI Bina Nusantara - Company Visit to BCA (Equipment and Safety Div.) **Sep 2026 - Oct 2026**
- Coordinated equipment preparation and safety arrangements for a company visit involving 60+ participants.
- Organized 60+ participant records and transportation arrangements to support event logistics.

HIMTI Bina Nusantara - Basic Python Programming Tutoring **Jul 2026 - Aug 2026**
- Taught 30+ students at Hillaris High School Tangerang about the basics of Python programming.
- Prepared 10+ PowerPoint slides covering Python loops, lists, and dictionaries to support programming lessons.

HIMTI Bina Nusantara - TECHNO 2025 (Event Committee) **Mar 2025 - Aug 2025**
- Organized the event concept, program schedule, and interactive games for TECHNO 2025, which attracted 100+ participants.
- Served as the Frontstage Liaison Officer to assist 10+ guests and VIPs of this event.

HIMTI Bina Nusantara - HIMTI x BCA Webinar (Promotion Div.) **May 2025 - Jul 2025**
- Succeeded in promoting this event and gathered 100+ participants.
- Organized promotion records of 100+ participants.

Project Experience

SahabatTuli Application (https://sahabattuli.com/) **Sep 2026 - Present**
- Developing an accessibility-focused mobile application that supports users with hearing difficulties through speech-to-text and text-to-speech capabilities
- Designed the application's UI/UX in Figma, creating 10+ screens.

SuplaiHub Marketplace Platform **Sep 2026 - Present**

- Designing the frontend experience for a marketplace platform that helps businesses discover and connect with suppliers.
- Developing UI layouts and user flows for the marketplace using Android Studio and Kotlin.

DineEat Restaurant Booking Platform **Feb 2026 - Jun 2026**

- Developed a restaurant booking platform that enables users to check estimated queue times, reserve tables, and order food in advance through a single application.
- Implemented JWT-based authentication and role-based access control for Admin and User roles.
- Collaborated on project development using Scrum practices and Git for version control.
- Built using Flutter, NestJS, Supabase.

NestMart UMKM Marketplace **Feb 2026 - Jun 2026**

- Developed an online marketplace that supports small businesses using Flutter, NestJS, MySQL
- Designed the UI/UX of 10+ screens using Figma and implemented using Flutter.
- Implemented JWT-based authentication for user sign up and login.
- Implemented product search, shopping cart, product listing, and category listing.

ezrun.com Speedrun Leaderboard Platform **Feb 2026 - Jun 2026**

- Developed a full-stack speedrun leaderboard platform using React, NestJS, and MySQL.
- Implemented JWT-based authentication and role-based access control for Admin and User roles.
- Developed 20+ REST API endpoints for game management, run submissions, and administrative approval workflows.
- Organized backend components using MVC and Singleton patterns.

MyWuling+ Application UI/UX Case Study **Feb 2025 - Jun 2025**

- Analyzed three key issues in the MyWuling+ app, including ambiguous user flows, inconsistent icons, and insufficient system feedback.
- Redesigned the interface using Figma, HTML, CSS, and JavaScript based on the Eight Golden Rules of Interface Design.
- Conducted interviews from 3+ users to gather requirements, translate into user needs, evaluate and identify areas for improvement using SUS and UEQ.

V-Phone Online E-Commerce UI/UX Design **Feb 2025 - Jun 2025**

- Designed a 10+ screen e-commerce website prototype in Figma based on the Eight Golden Rules of Interface Design.
- Developed and deployed a responsive, cross-platform prototype comprising 5+ pages using HTML, CSS, and JavaScript.

Certifications and Awards

- TestGrid.io: Introduction to Software Testing - Level 1 **2026**
- Microsoft Certified: Azure AI Fundamentals **2025**

Skills

- Programming Languages: Java, Python, C, JavaScript, TypeScript, SQL, Dart
- Frontend & Mobile: React.js, React Native, HTML, CSS, Flutter, Kotlin
- Backend & Database: Node.js, NestJS, MySQL, Supabase
- Tools & UI/UX: Git, GitHub, GitLab, Figma
- Project Management: Agile, Scrum, Project Planning, Task Tracking, Progress Reporting
- Business Analysis: Requirements Gathering, Functional and Requirements Documentation, User Stories, Acceptance Criteria, System Analysis, Data Validation and UAT, Usability Testing
- Soft skills: Collaboration, analytical thinking, critical thinking, problem solving, attention to detail, independent work, teamwork, adaptability, willingness to receive feedback, SDLC knowledge
